Specialized Cleaning Activities

General Pest Control

Our service is family friendly and easy to work into your routine. After completing an initial flush out visit, we return regularly, usually just once per season, to attack pests where they nest and hide, as well as to put up protective barriers that prevent re-entry of pests into your home. Unlike many other services in the Pakistan area, the majority of our customers only see us once a season. Our goal is to do it right each time and to set a service schedule that works best with your home and situation.
